DEDICATION

Dr. Shorey began his formal education at Lyndon Institute, later receiving his A.B. Degree from Dartmouth in 1941 where he was a Phi Beta Kappa. He graduated from the University of Pennsylvania School of Medicine in 1943 and was elected to Alpha Omega Alpha. His post-doctoral training includes his Medicine Residency at the University of Pennsylvania, a Fellowship at Pepper Laboratory, and a Fellowship in Gastroenterology at the Kinsey-Thomas Foundation. His professional appointments, professional society memberships, and appointments to health related groups are too numerous to enumerate.

WINSTON K. SHOREY, M.D.

DEAN
SCHOOL OF MEDICINE

Dr. Shorey joined the University Medical Center as Dean of the Medical School in August of 1961. At that time student admissions were low and the attrition rate was unusually high. Over the past 12 years the freshman class admissions have reached a high of 121 in 1973 and the applications for entrance have quadrupled. Due to the institution of improved screening methods as well as curriculum changes which have allowed more flexibility, the attrition rate has been cut drastically to less than 5 per cent for this year's graduating class.

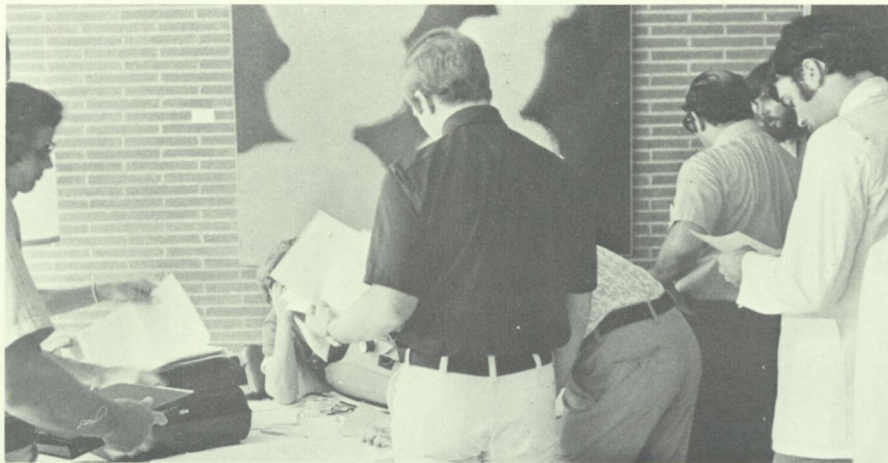

During his tenure divisions of biometry, family practice, nuclear medicine, biomedical communication and continuing education for physicians in private practice have been established through his unrelenting efforts. The first fulltime faculty members in Ophthalmology, Neurosurgery, Otolaryngology, and Neurology as well as fully accredited residencies in these fields were also founded during the last 12 years. Under his guidance a training program in cytotechnology, a computer center, closed circuit television, and the Child Study Center became realities. And the Arkansas Caduceus Club came into existence. Dr. Shorey also helped institute the Maternal and Infant Care Projects, the Arkansas Regional Medical Program, the Children and Youth Project of Pulaski County and the Chronic Renal Disease Program.

Federal research grants at UAMC doubled during his first year as Dean and the Barton Foundation invested one million dollars for Medical Research and a \$400,000 grant to the School of Medicine for scholarships. Through his influence and efforts, the Arkansas General Assembly increased the Rural Health Scholarship Program from an annual loan of \$1600 to \$5000. During the 69th General Assembly \$18,100,000 was funded for remodelling and construction programs which will eventually result in the admission of 170 freshmen medical students.

Dr. Shorey retires as Dean of the Medical School for the past 13 years to take the leading role in directing the Area Health Education Centers Program. His presence will be missed by many but the heritage that he leaves will be a constant reminder to all of a man dedicated to his convictions, devoted to equality of health care, concerned about his fellow man, and exemplary of integrity, seasoned judgment, and compassion.

REGISTRATION

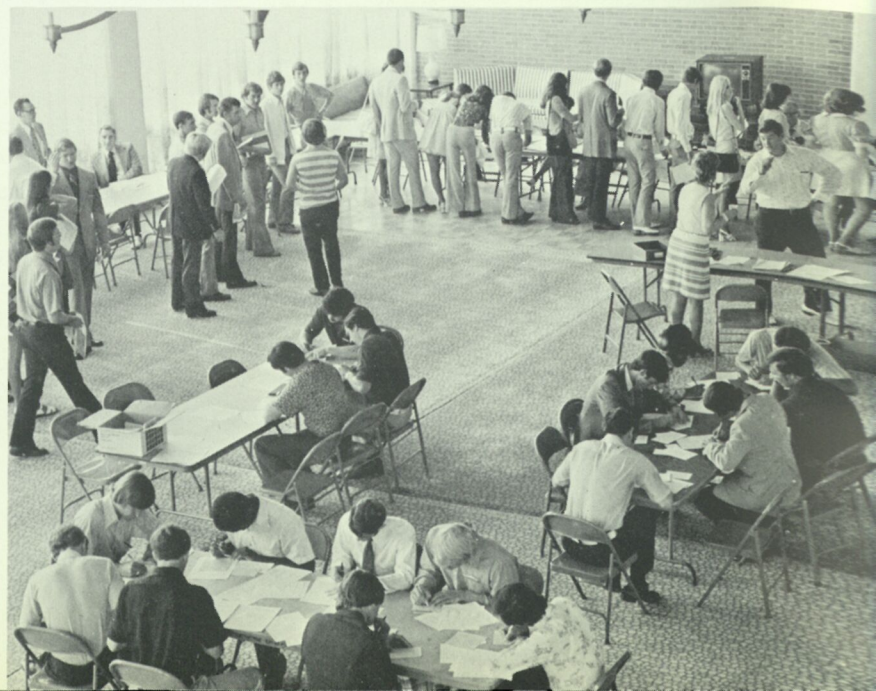

Registration began with 957 students enrolling in UAMC schools. The routine is constant year after year from the filling out of myriads of forms to the paying of traffic fines avoided for 12 months. Buying insurance comes in handy if you're fortunate enough to get sick between 12 and 1 PM. After this comes writing tuition checks, signing loan papers, posing for I.D. pictures, and signing up for football tickets. All in all, a day well spent in confusion, bewilderment, and chaos.

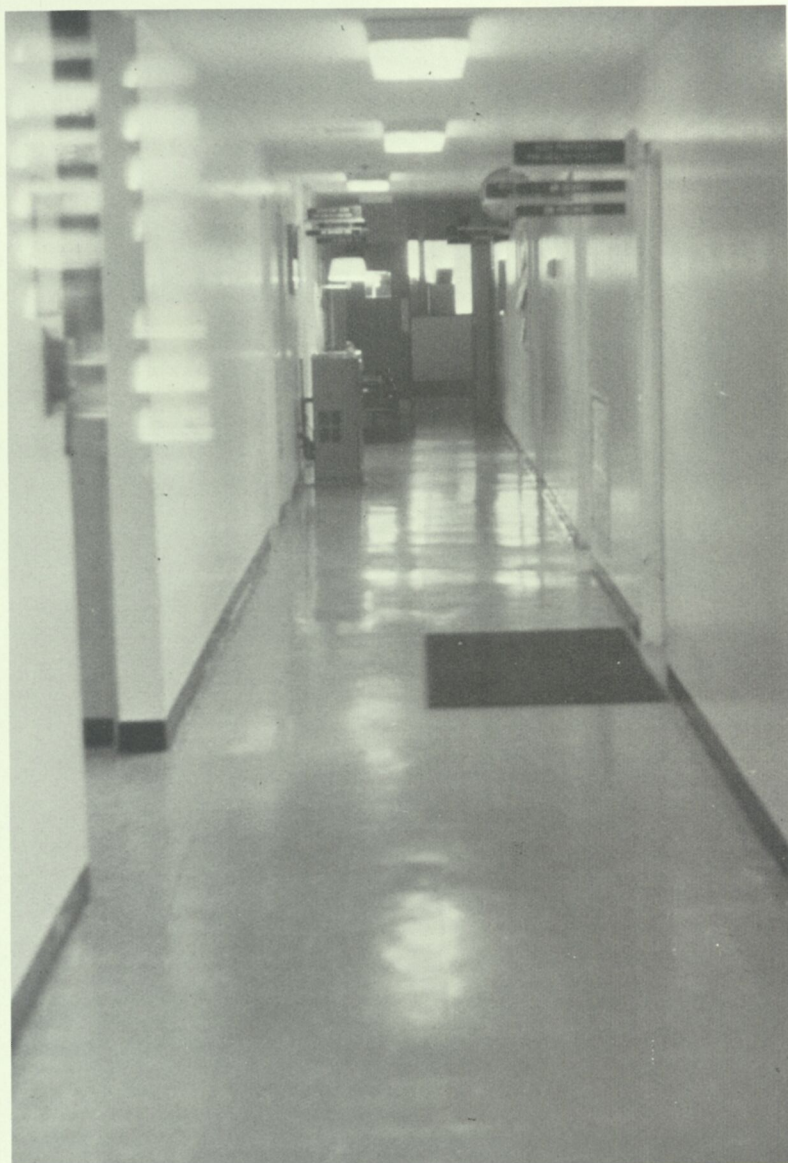

Dean Babbs supervises registration.

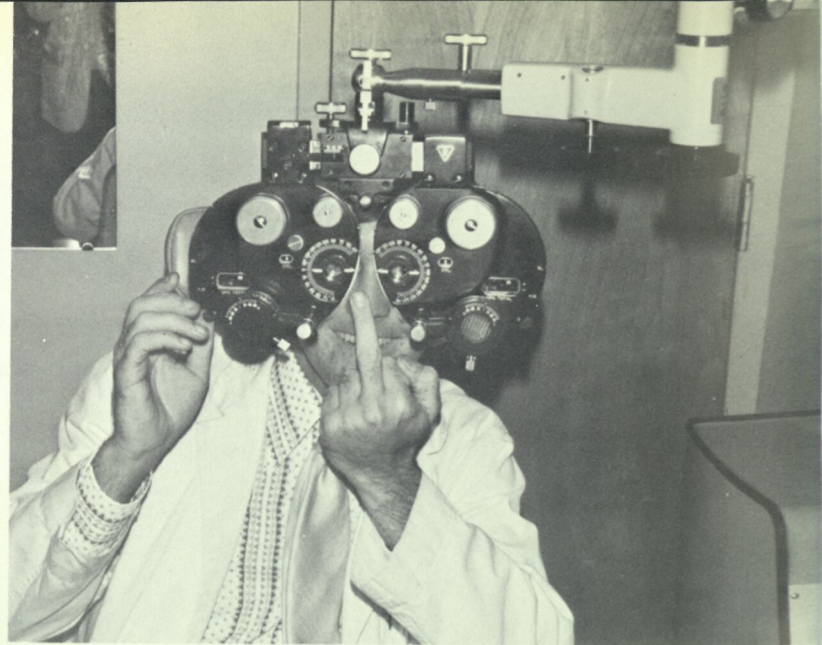

Name: John Brown
Race: White
U. S. Citizen: yes
Sex: as often as possible

"Paging Dr. Breech. Dr. Frank Breech."

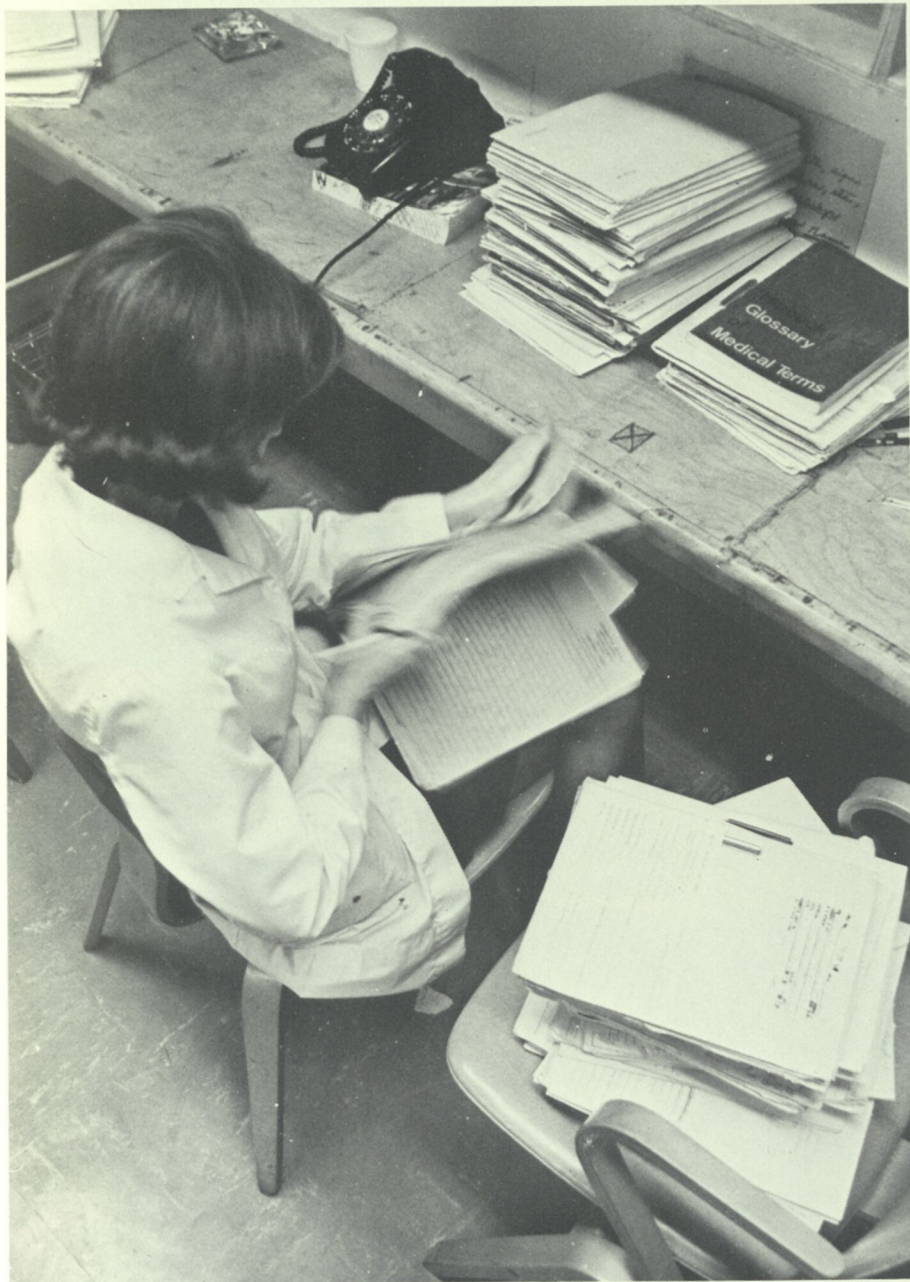

The single finger test for convergence.

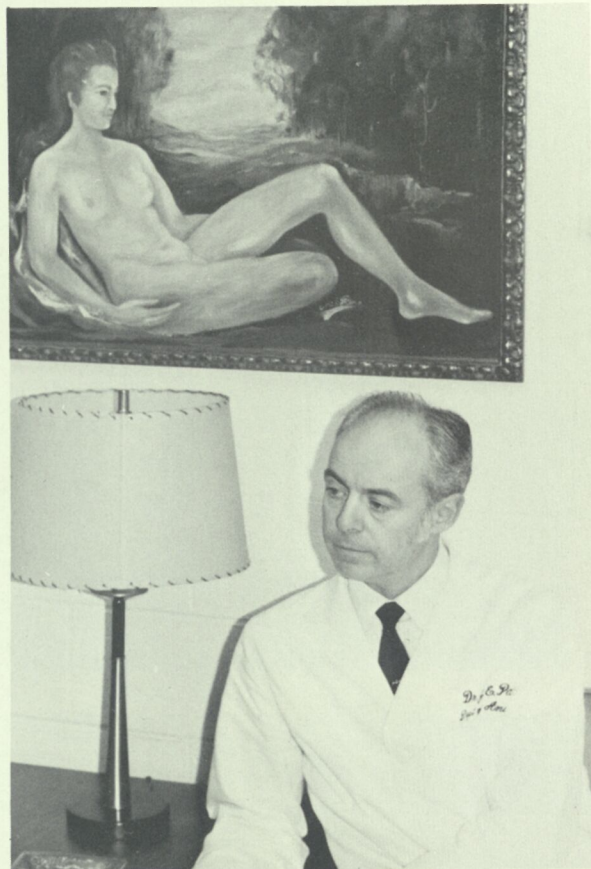

"Just one drop of Diethylstilberterol and I'm good for the whole day."

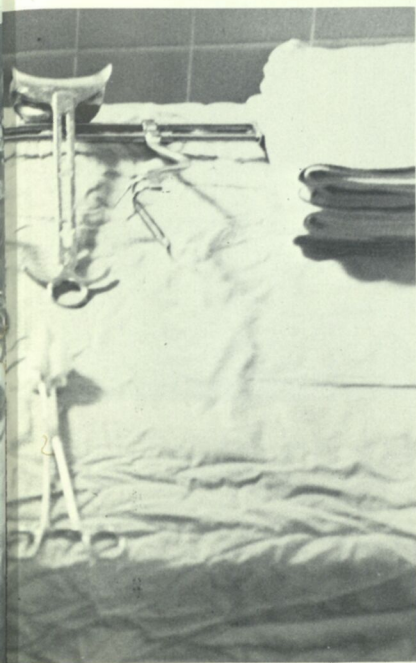

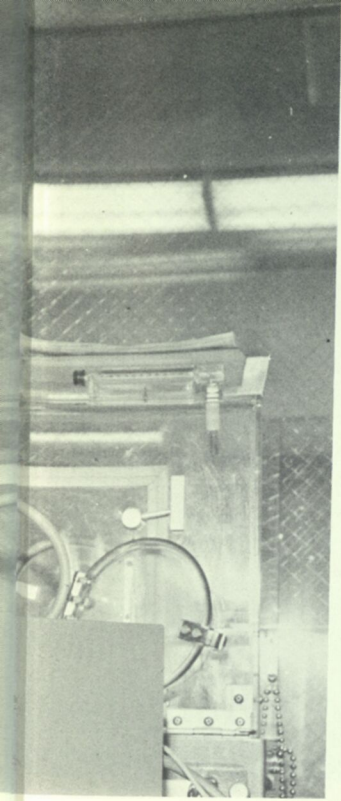

"Just 103 more charts to dictate. That's just five short of R. P. Moon's record."

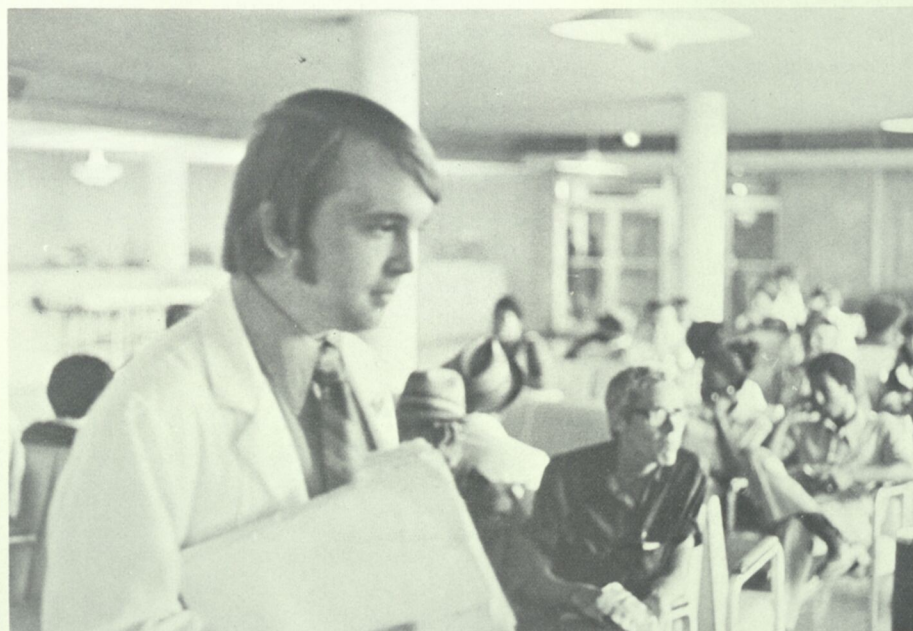

Self-Portrait: Summer of '42

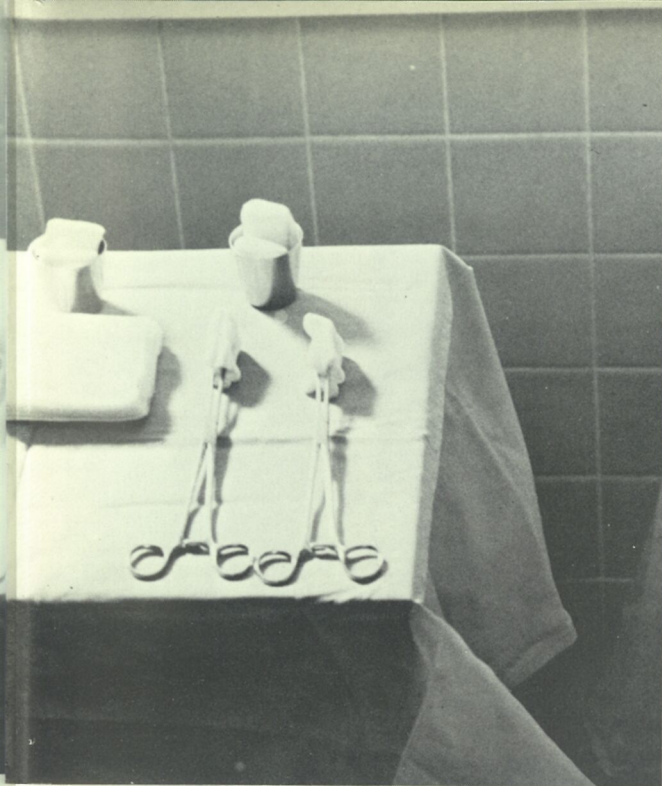

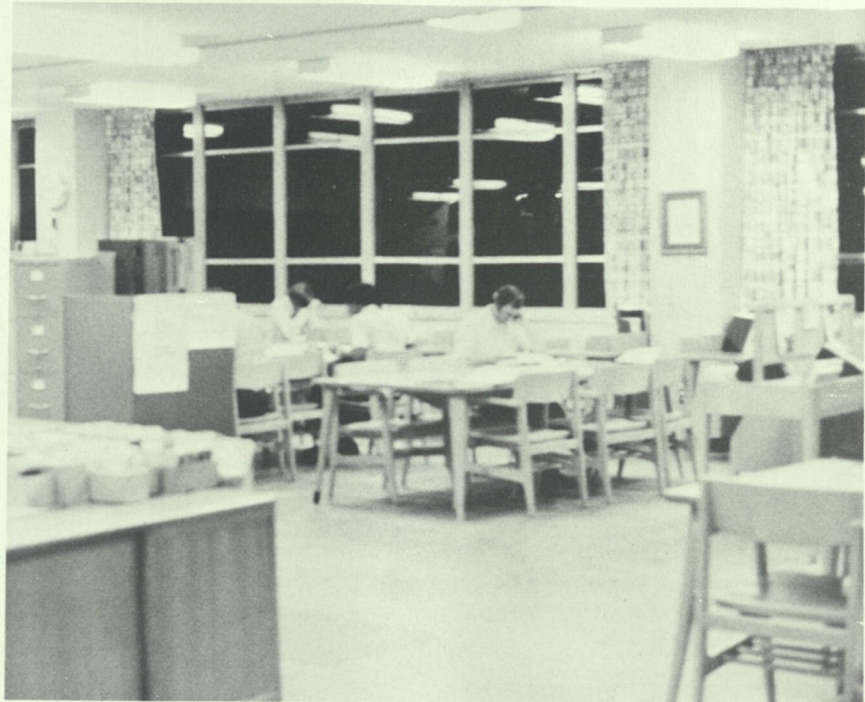

The Medical Center furnishes neonatal care for over 2500 newborns delivered here each year. Dr. Alice Beard has directed our nursery and intensive care unit for several years with the intention of providing an optimal facility for neonatal care.

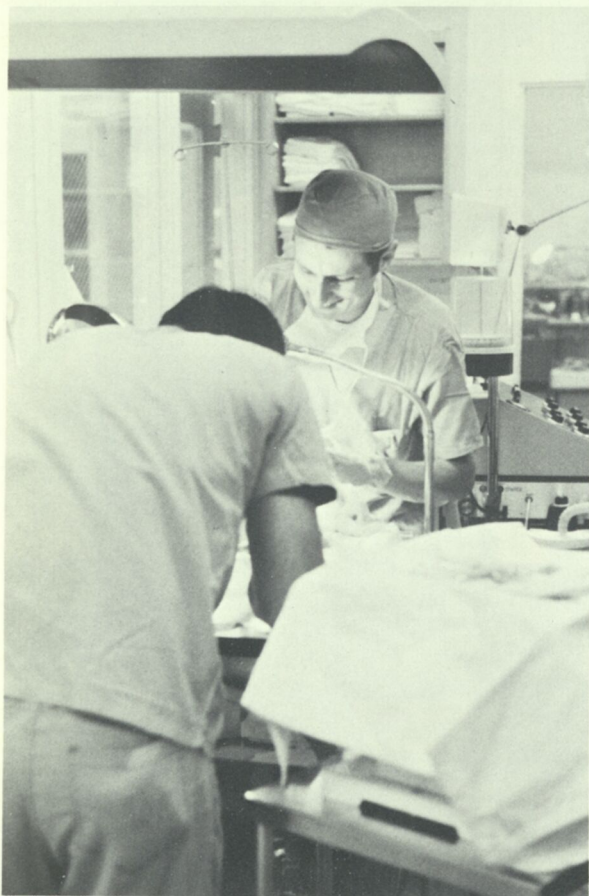

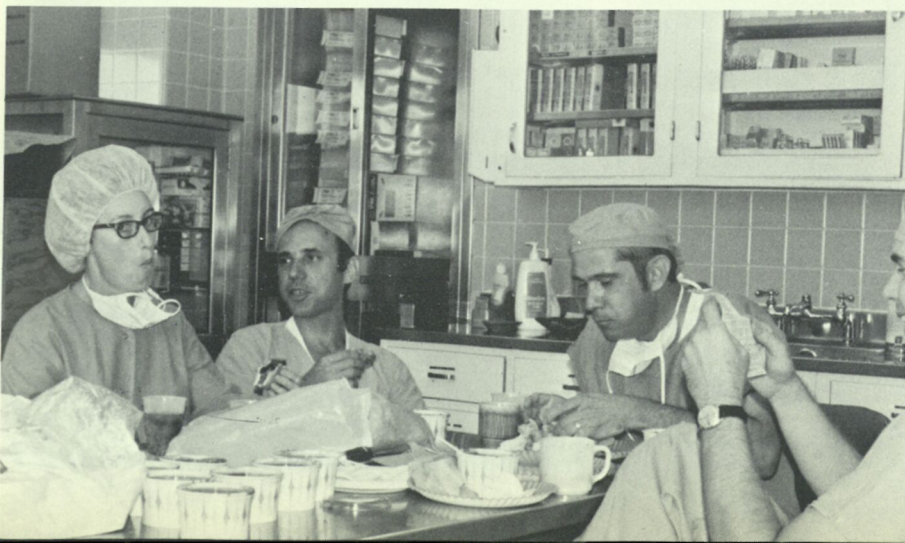

This is the Junior's instrument table which helps him become familiar with instruments other than retractors.

Students crowd to the library for its quiet atmosphere.

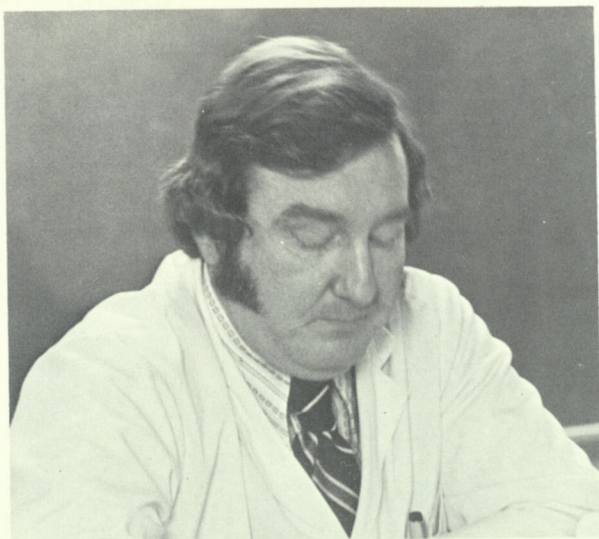

"In Family Practice, we have some scut work every now and then."

ANESTHESIA REGULATION NO. 1:

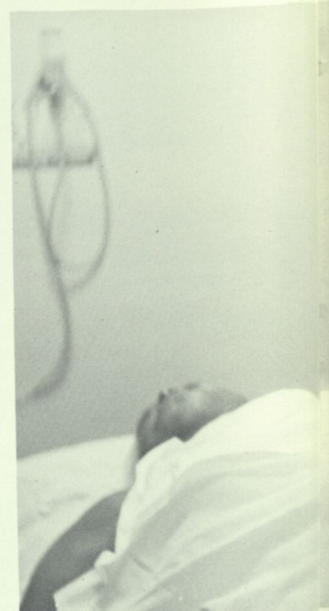

Always eat before passing gas.

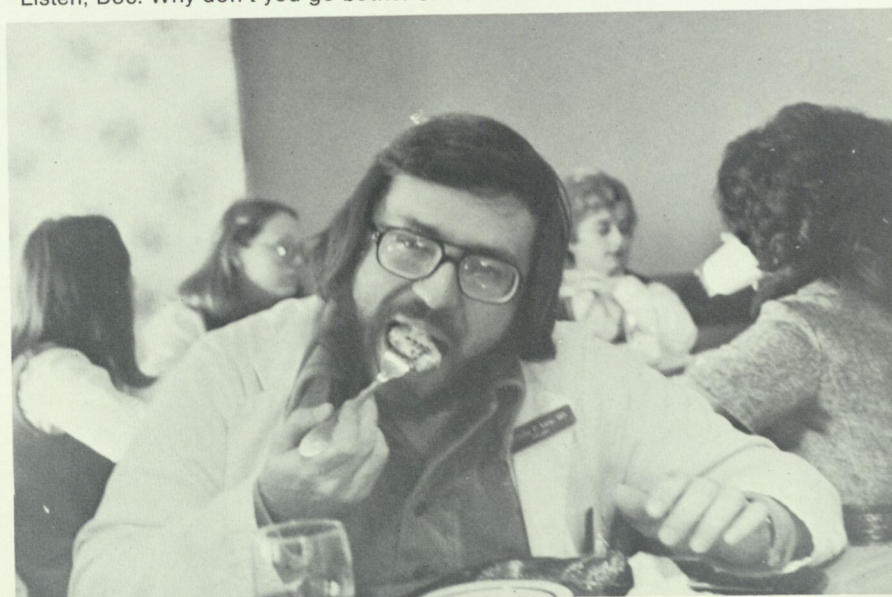

"And finally, Lord, please keep Dr. Reid off my back."

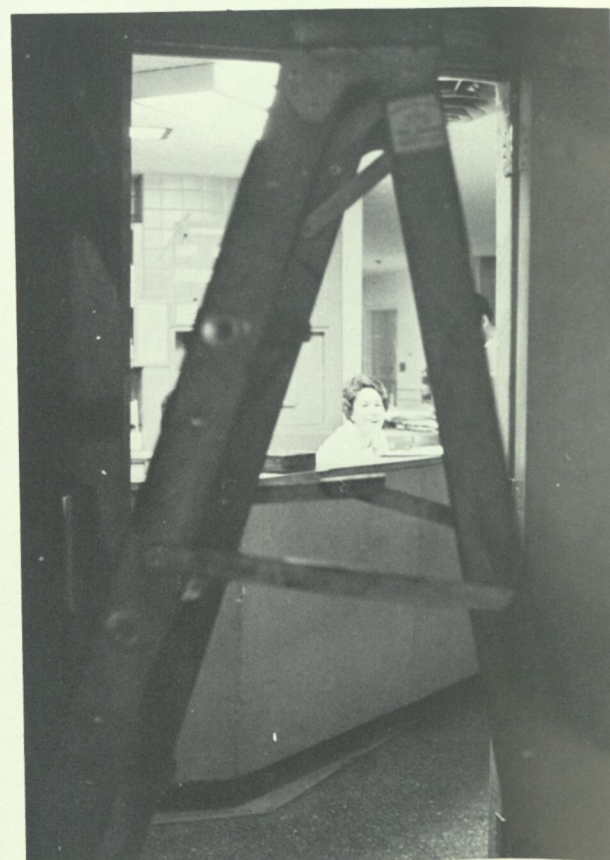

"Looks like crap to me."

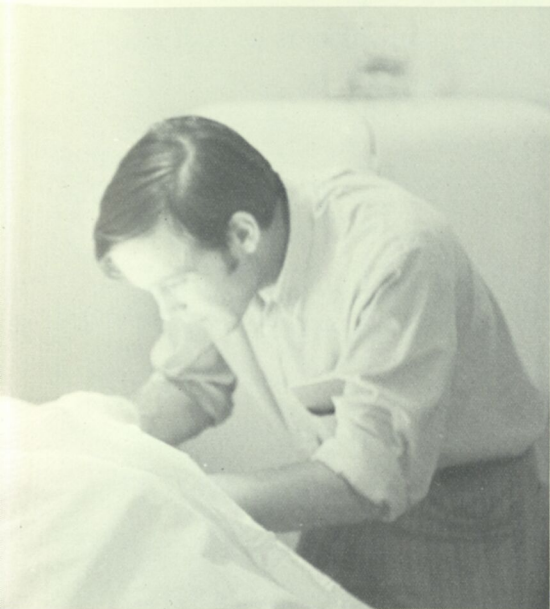

"Listen, Doc. Why don't you go bother some other kid?"

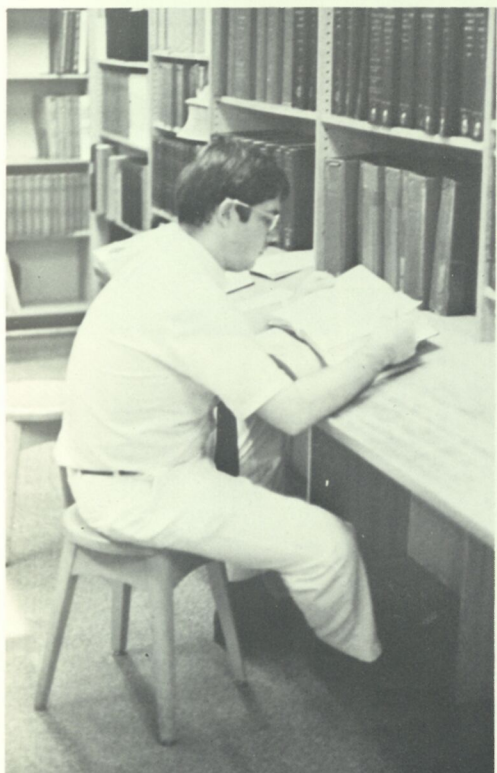

"Don't let me scare you. I'm just feeding my face."

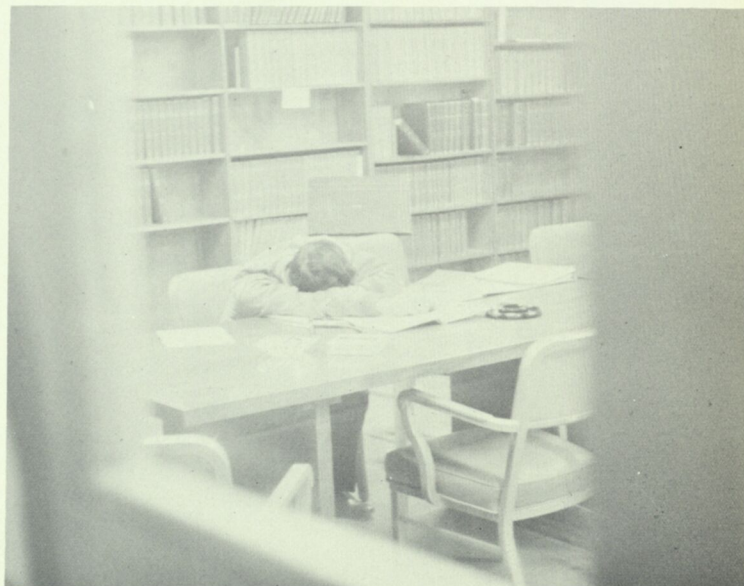

"I put your catheter in just a little bit too far."

Junior Studs relax after three hours of daily rounds.

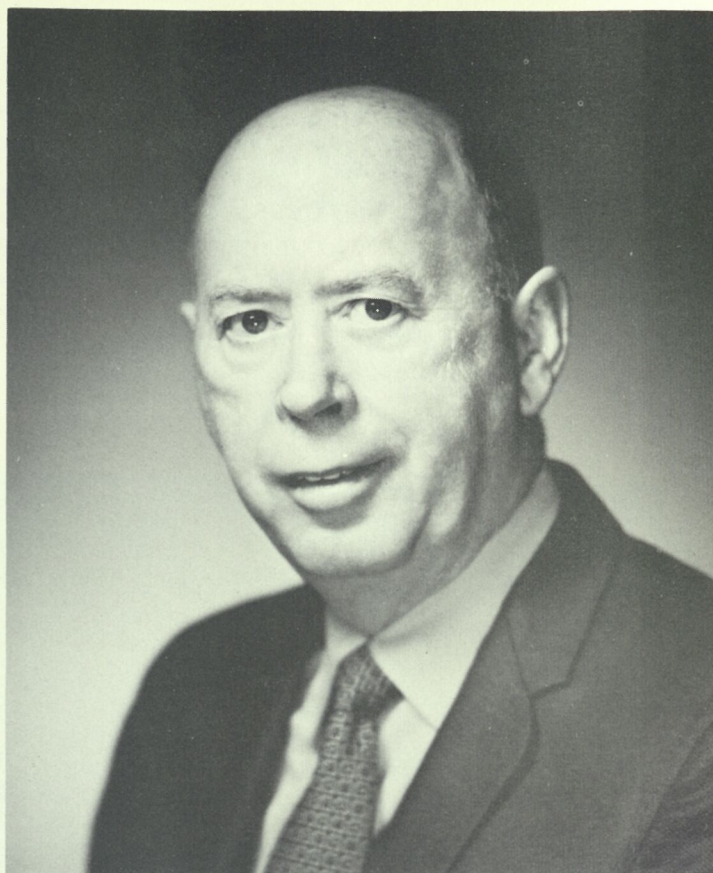

Part of the \$18,000,000 appropriated by the legislature was budgeted for various improvements as well as additions which include:

1. a quick-space office area
2. better parking facilities and traffic lanes
3. a Medical Intensive Care Unit
4. a Family Planning Out-Patient Clinic
5. remodeling of the Emergency Room and Operating Suite
6. elimination of fire hazardous areas

Hopefully, other problem areas such as inadequate teaching positions and salaries, low resident stipends, poorly organized nursing care, and an inefficient security system will not remain unrecognized as they have been the past several years.

David Wiley Mullins, Ph.D.
President of the University of Arkansas

B.A., University of Arkansas; M.A., University of Colorado; Ph.D., Columbia University; Executive Vice-President Auburn University, 1949-1960; President, University of Arkansas since 1960

FACULTY AWARDS, PART II *

Dr. Roman: Endometrial Enchilada Award
 Dr. Barclay: The Blighted Ovum Award
 Dr. Westbrook: Jethro Bodine Award
 Dr. B. Thompson: Nice guys finish last Award
 Dr. Landsman: Herman Munster's Grandfather Award
 Dr. V. Gordon: Whale Tails Award
 Dr. Rosenfeld: Semitic Smegma Award
 Dr. Harry Brace: The John Douglas Award
 Drs. Bob & Rosalind Abernathy: The Quick & The Dead Award
 Dr. Shorey: Goodbye Mr. Chips Award
 Dr. Shannon: Red on the head like a noodle on a poodle Award
 Dr. Bates: Pres. of the John Pauly Fan Club Award
 Dr. Marvin: Sleeping dogs do lie Award
 Dr. G. Green: Tom Terrific Award
 Dr. J. Elders: What makes a hormone Award
 Dr. Caldwell: The baby died but the fart lived
 Dr. Campbell: The Woopsee Award
 Dr. Reed: The Pseudo Suck Award

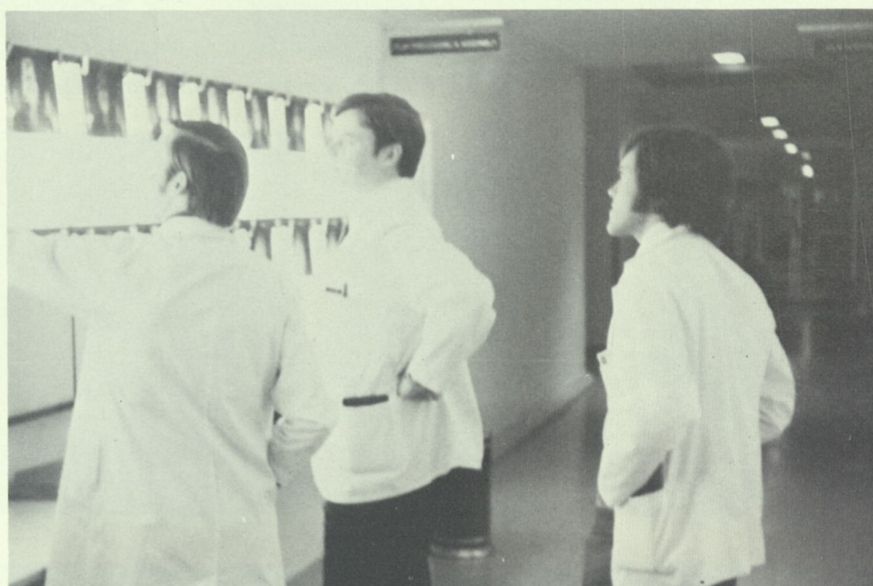

Dr. Bryles: You're OK, I'm Fat Award
 Dr. Sunderman: The Shrink Shrank Award
 Dr. D. Williams: Some nice guys finish first Award
 Dr. Redman: Penis Genuis Award
 Dr. S. Flanigan: Limp Neuron Award
 Dr. H. Hayes: The Frilly Dilly Award
 Dr. Beard: Mother Goose Award
 Dr. Clark: Epidural Maniac Award
 Nurse Holland: The Sargent Snorkle Award
 Mr. Warner: Promises, Promises Award
 Dr. Padilla: The Antihuman Globulin Award
 Dr. Cornell: The Ten Dollar A Day Man Award
 Dr. Hawks: The Golden DeLee's Award
 Dr. Dennis: The School Without Balls Award
 Dr. D. H. Berry: The fart was twins Award
 Dr. Baldwin: The England, Arkansas Award

To the new dean, from his first graduating class, the class of '75: Good Luck, Sucker Award

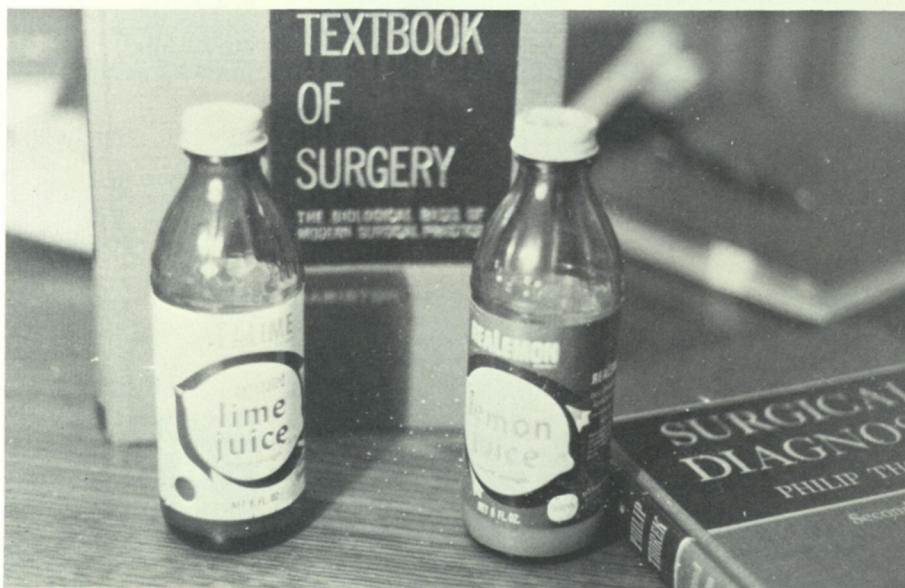

*The above awards are accredited to the Junior Class and do not necessarily represent the opinion of the Editor.

"It looks like the tailpipe of a Studebaker to me."

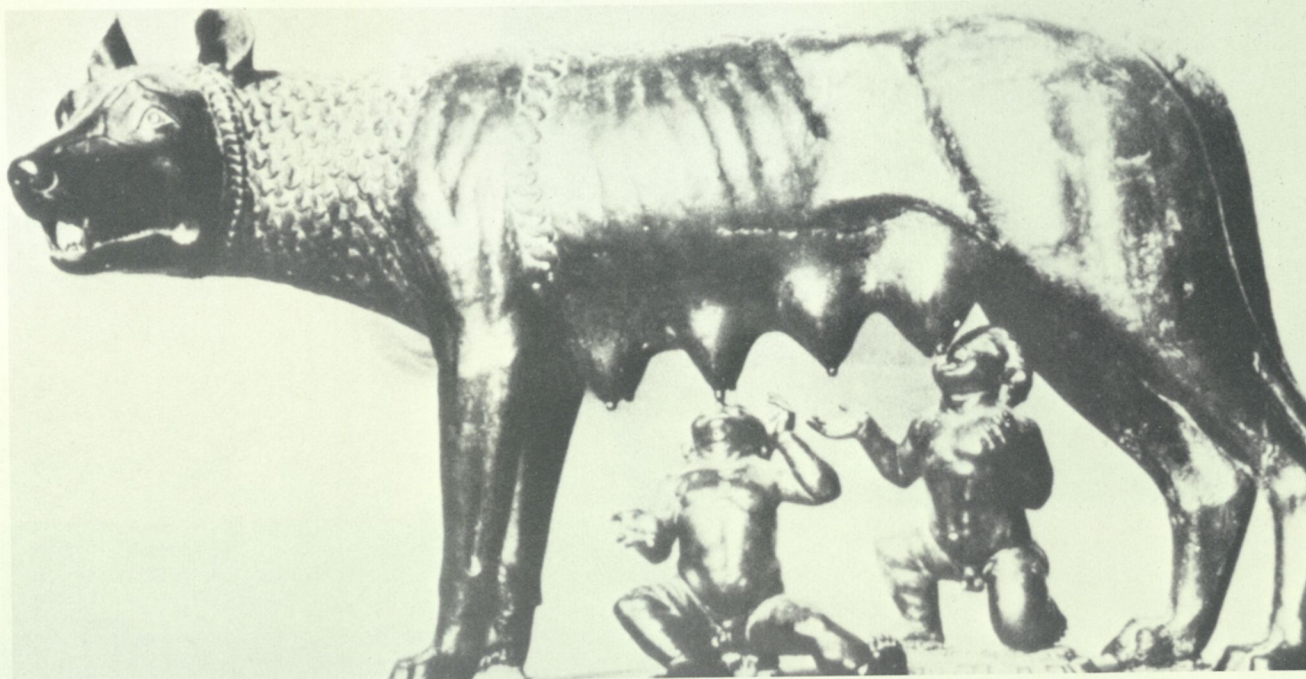

"And when you trace-out these veins here, they form what looks like a little vagina."

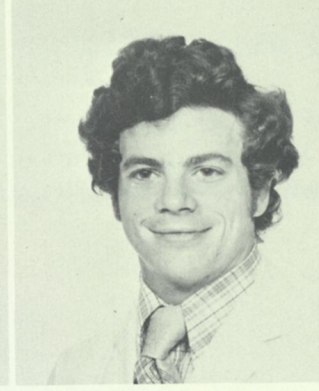

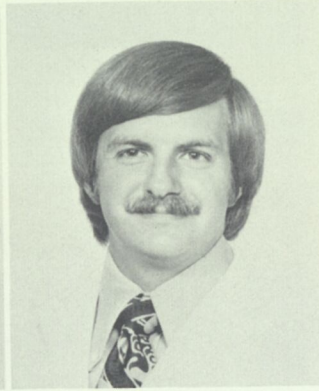

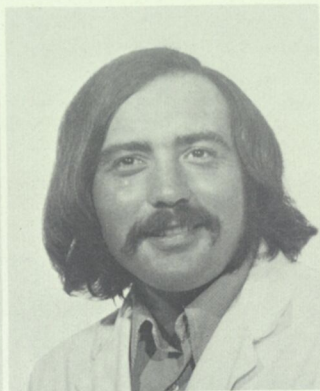

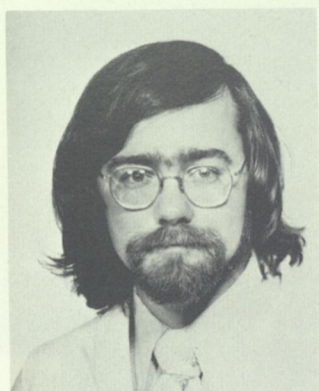

Who says Dr. Reed and Dr. Caldwell never get together?

SPECIAL AWARDS SECTION

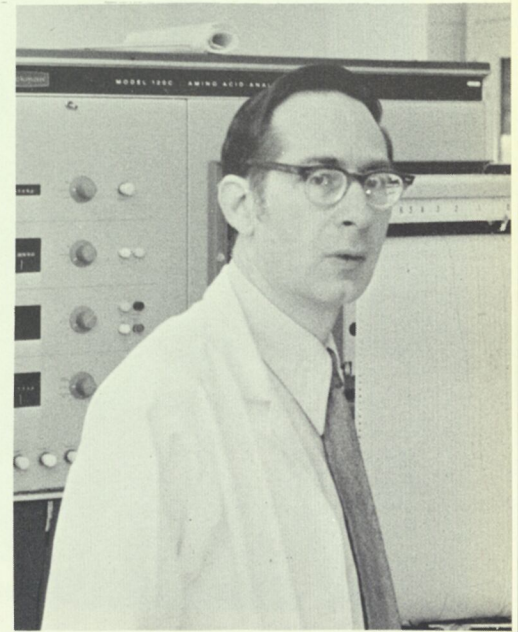

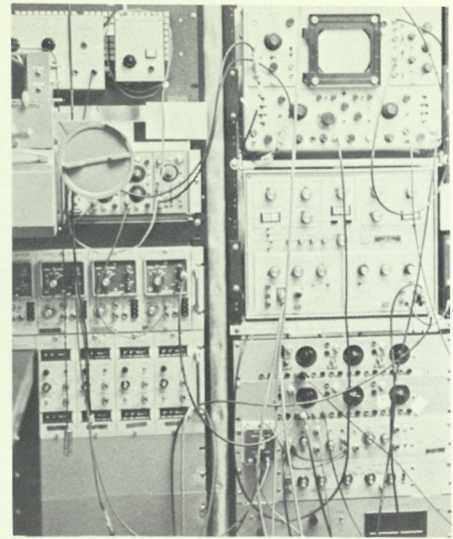

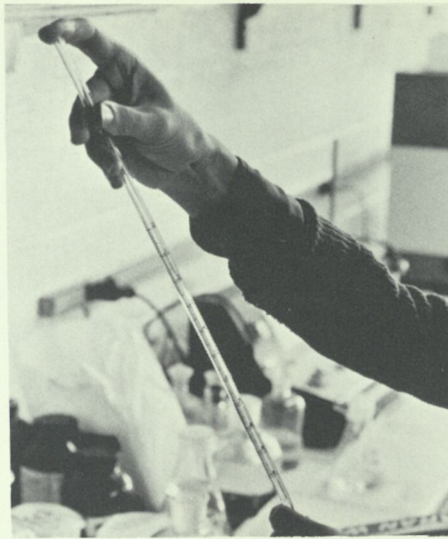

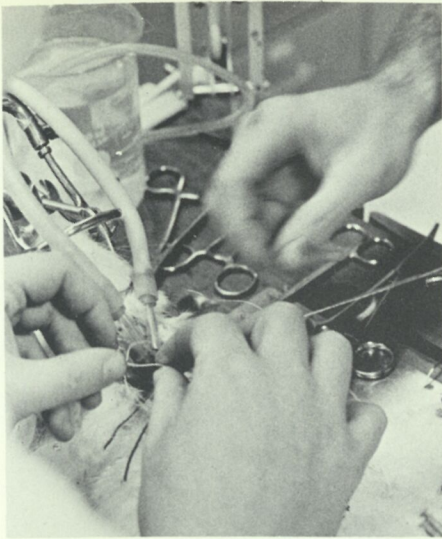

The SANDBAG AWARD is presented to that student who shows the greatest consistency and cunning in persuading his classmates that he is on the verge of flunking every exam. This year's recipient is Peter M. "Speedy" Marvin.

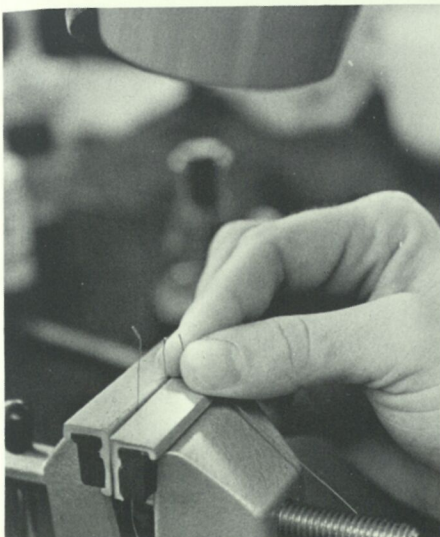

The ARCHEY BUNKER SOUND-ALIKE AWARD, which needs no particular explanation, could rightfully go to only one person — Mr. John F. Mumey. Keep that sun-lamp on your neck, John!

The first annual HYENA-WITH-A-HERNIA AWARD is happily presented to Benji Hall, owing to his singular ability to break every window in the house with a single laugh delivered from a distance of four blocks.

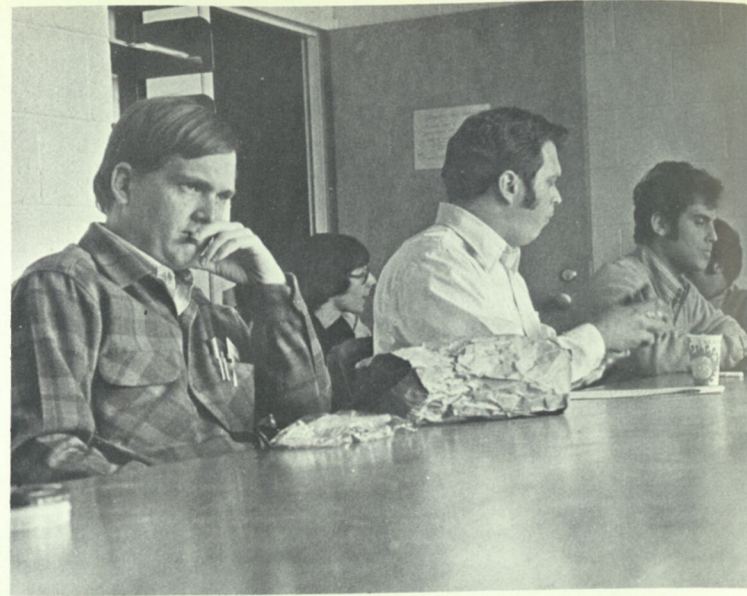

"What do YOU want?"

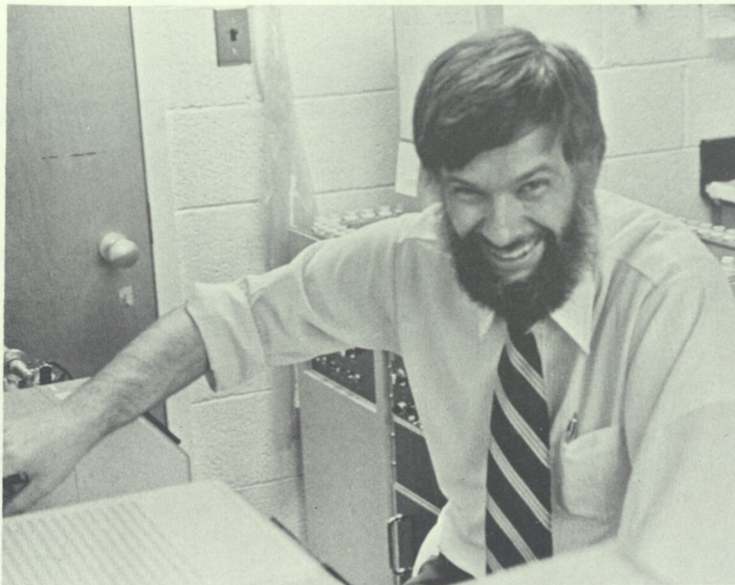

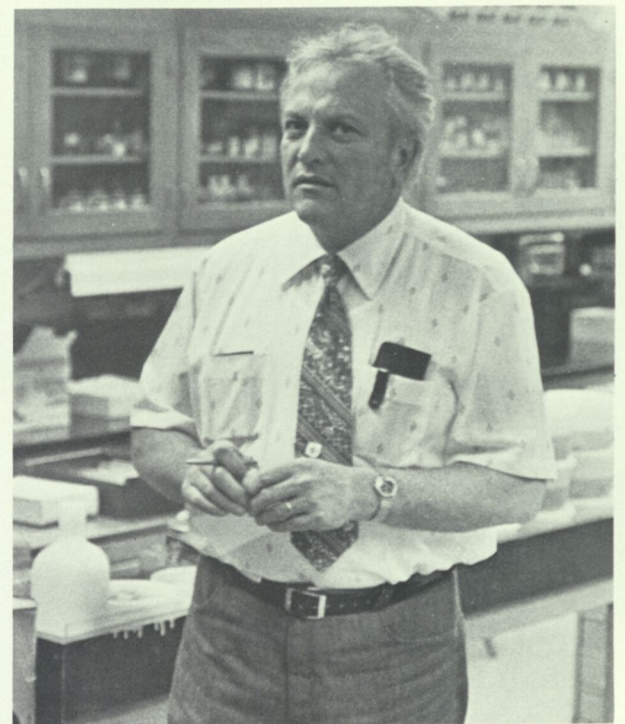

Faceoff: The Beard Brigade . . .

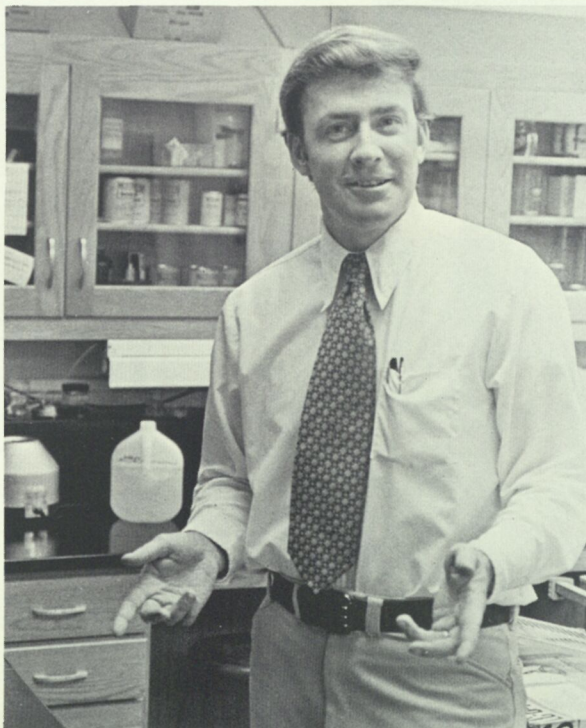

. . .vs. the Clean Machine.

"Betcha can't guess what **this** knob does!"

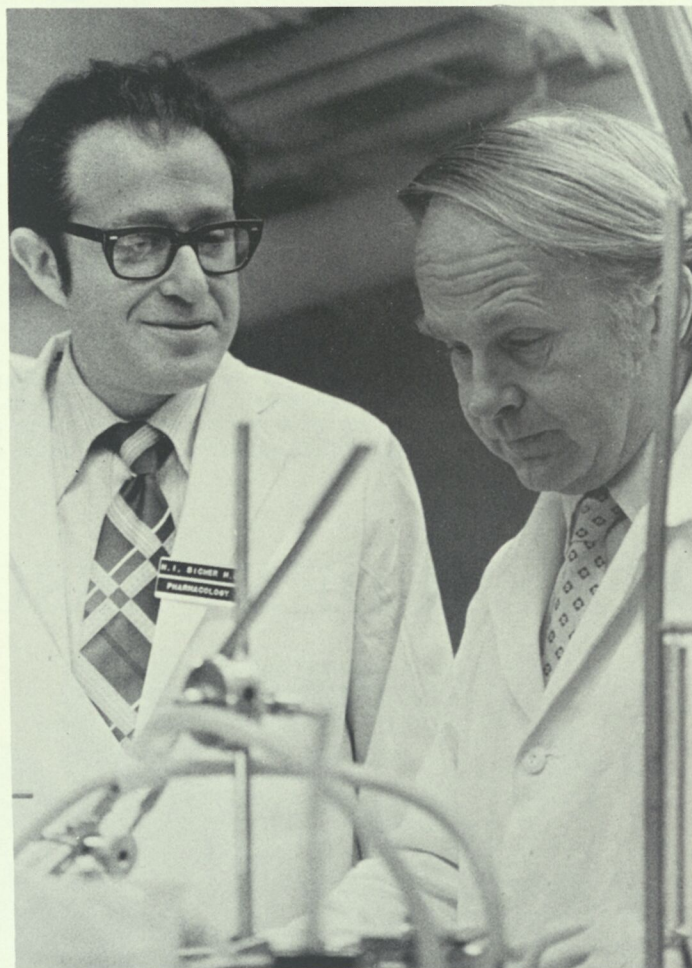

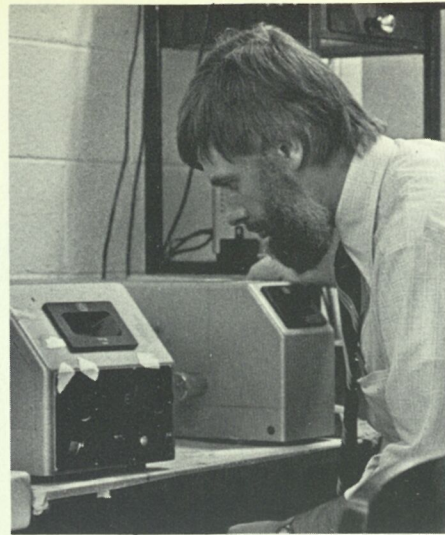

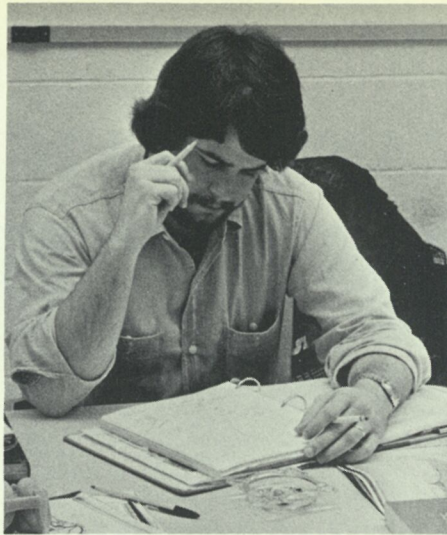

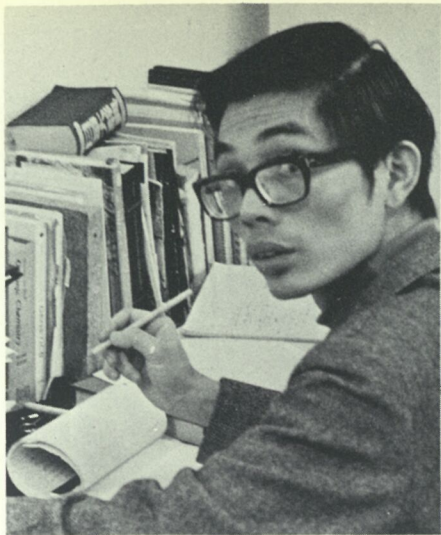

"I don't trust people who point little black boxes at me."

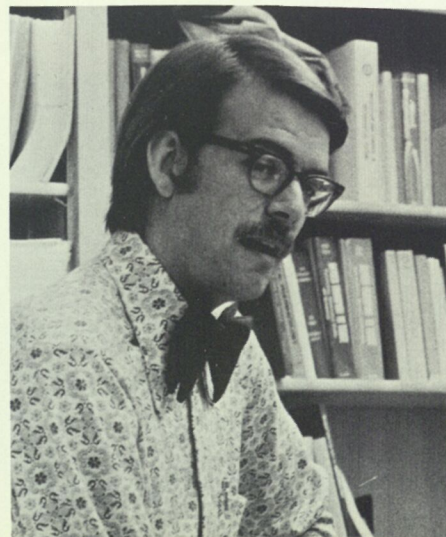

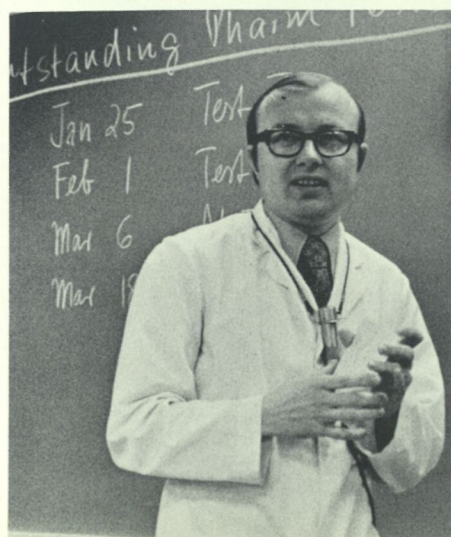

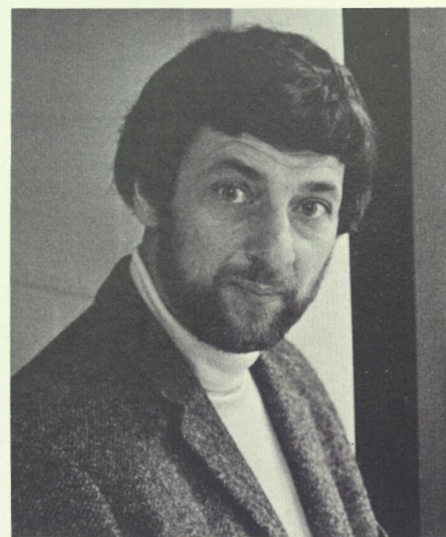

"Geeze, it's really **very** simple . . .

. . . when you use one of my latest devices here."

"I've told you a thousand times, Heinz — there is no drug which will reverse alopecia in *Felis domestica*."

DEAN'S OFFICE

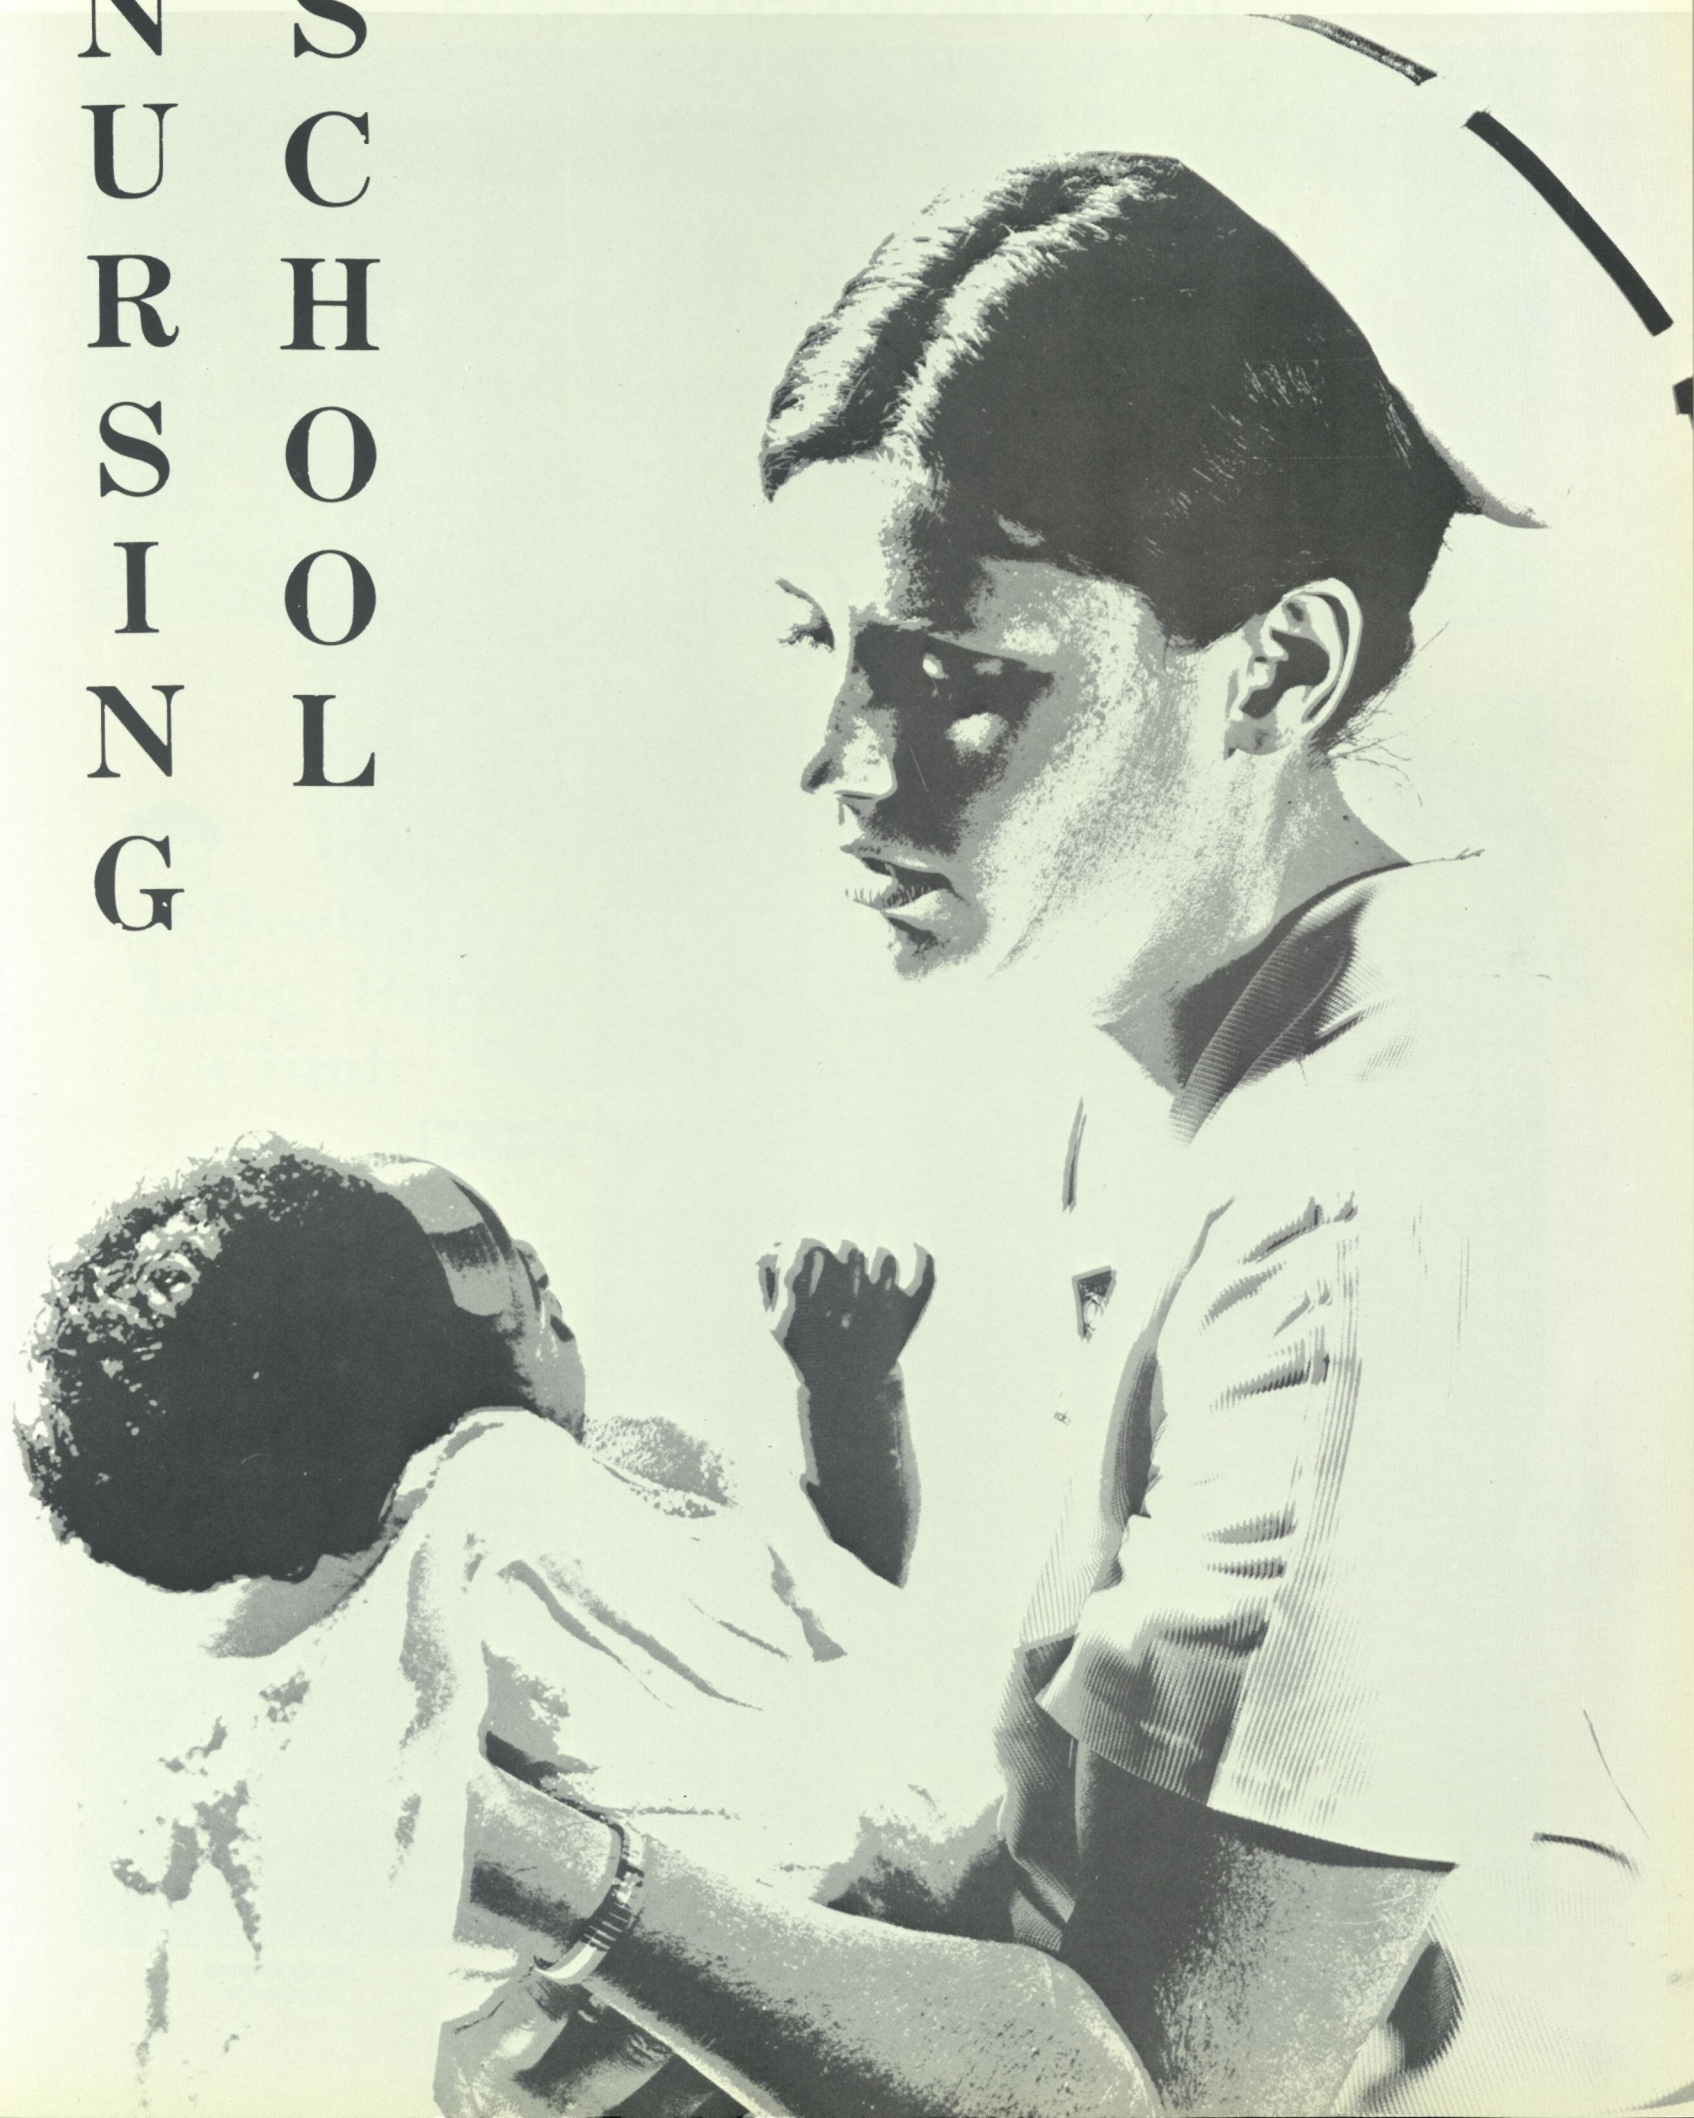

Here a couple of familiar faces, one of which appears in a new place this year — Dr. Charles T. Prigmore has now assumed his new duties as Associate Dean of the Graduate School. His very energetic and positive approach to Graduate Student affairs has already won him the heartfelt respect and admiration of all of us. Mrs. Wanda Weise, the very capable and hard-working Administrative Assistant to the Graduate School, eases our bureaucratic and administrative plans through her intimate knowledge of "the ropes."

GRADUATE STUDENT ASSOCIATION

Officers of the Graduate Student Association this year are, left to right: Chunfu Peng, Treasurer; Mona Teague, Secretary; Michael Yelich, President; and Michael Griffey, Vice President. The Graduate Student Association works toward maximizing the quality of Graduate education at UAMC by actively promoting the Graduate program and by providing channels of communication for the exchange of research ideas among ALL Graduate Students.

I was hungry and could not feed myself.
 You left my food tray out of reach on my bedside table,
 Then you discussed my nutritional needs during a nursing conference.
 I was thirsty and helpless, but you forgot to ask the attendant to refill my water pitcher.
 You later charted that I refused fluids.
 I was lonely and afraid, but you left me alone because I was so cooperative and never asked for anything.
 I was in financial difficulties and in your mind I became an object of annoyance.
 I was a nursing problem and you discussed the theoretical basis of my illness. And you do not even see me.
 I was thought to be dying and, thinking I could not hear, you said you hoped I would not die before it was time to finish your
 day because you had an appointment at the beauty parlor before your evening date.
 You seem so well educated, well spoken, and so very neat in your spotless unwrinkled uniform.
 But when I speak you seem to listen but do not hear me.
 Help me, care about what happens to me, I am so tired, so lonely and so very afraid. Talk to me—reach out to me—take my
 hand. Let what happens to me matter to you.
 Please, nurse, listen.

Empathy

Some say "Love"
I say more,
The soft touch of a cool hand
On the fevered body
Of failing life
Much like the wisp
Of a sea breeze
On a hot summer's night,
Words quietly spoken
To a tortured heart
Confined by fear
Understood by hope in white,
The light of life
Taken from Death's cloud
By the glint of a caring eye
Or a fallen tear,
The unlovable being loved,
I say "Empathy"
The soul of a nurse
God's greatest gift
Through the days and nights
Of man.

HEALTH RELATED PROFESSIONS

SCHOOL OF HEALTH RELATED PROFESSORS

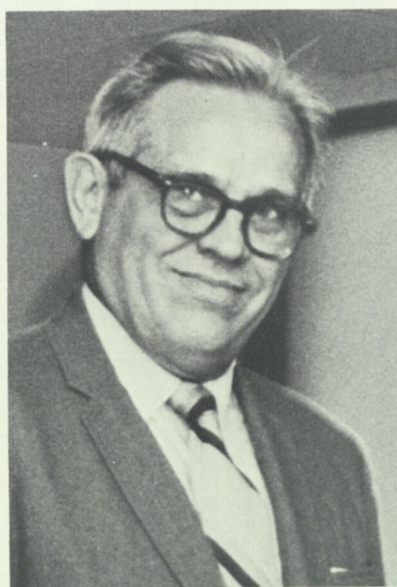

The establishment of the University of Arkansas School of Health Related Professions was approved by the University of Arkansas Board of Trustees on June 4, 1971. This action resulted from the recognition of an obvious need to provide a coordinated approach in the education and training of manpower in health related fields. The University of Arkansas has, as do all universities, a broad responsibility in teaching, service, and research. The School of Health Related Professions is the primary arm of the University for these functions in allied health. The School of Health Related Professions offers programs combining general education and technical education in a flexible manner to provide for the ever changing educational needs of those pursuing careers in the allied health professions.

TOMORROW'S YESTERDAYS

Is this what I really want to do in life, is cleaning teeth so important to me? Do I care . . . I mean really care . . . It seemed so important when I applied and juggled schedules to make it to Little Rock for short interviews.

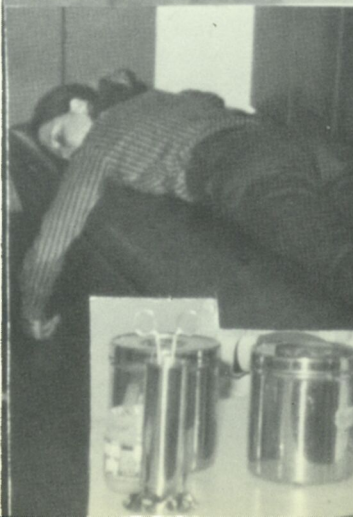

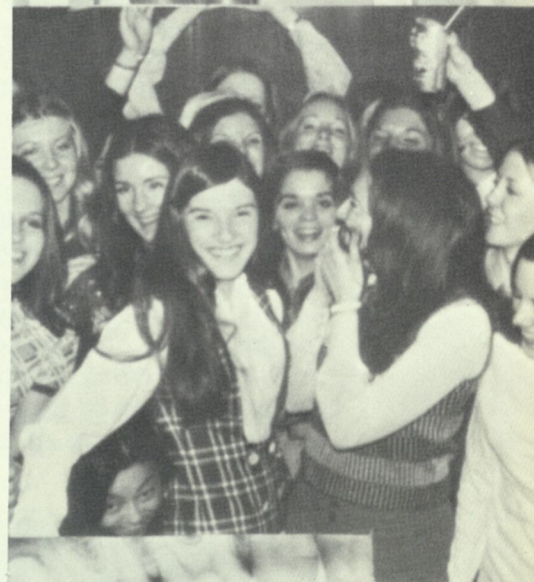

Oh yeh, just a second, no I don't have a 10:30 tomorrow, got any ideas? . . . Nope, haven't gotten up for studying for tomorrows test yet either, just haven't had time . . . yeh, come on in, sure I'd love to go.

What's so hot about a professional school anyway . . . Why remember getting out of class at noon and messing around all day, boy was that rough never having any time for anything. Writing that letter to old mom and dad to be sure they wouldn't forget me, but it was easier to just call collect.

Maybe if I make up a study schedule, I can keep up this semester and won't have to cram so hard during finals . . . wish I could remember all the things that I learned in civ . . . was it Socrates who said that or was it Aristotle?

Ambition . . . what is it? Seems I used to have a lot of it . . . Why didn't I even look at that material last night . . . Plug in the coffee pot would you? Used to be so easy studying all night, now it's hard, super hard . . . didn't you say you had a new album we could listen to?

It's almost 1:30, maybe if I call she'll still come . . . everyone else has patients and I'm getting the evil eye. How can people be so irresponsible . . . The alarm didn't go off this morning, I was late for school . . . again . . .

CODESCO
operations center
P. O. Box 20702
Phoenix, Arizona

Today was a great day, a two and half a three . . . and they didn't bleed . . . very much . . . Requirements! . . . why worry about them so much. It all comes out in the wash-right . . . How can they expect me to stay awake in class when the lights go off and the projector stays on.

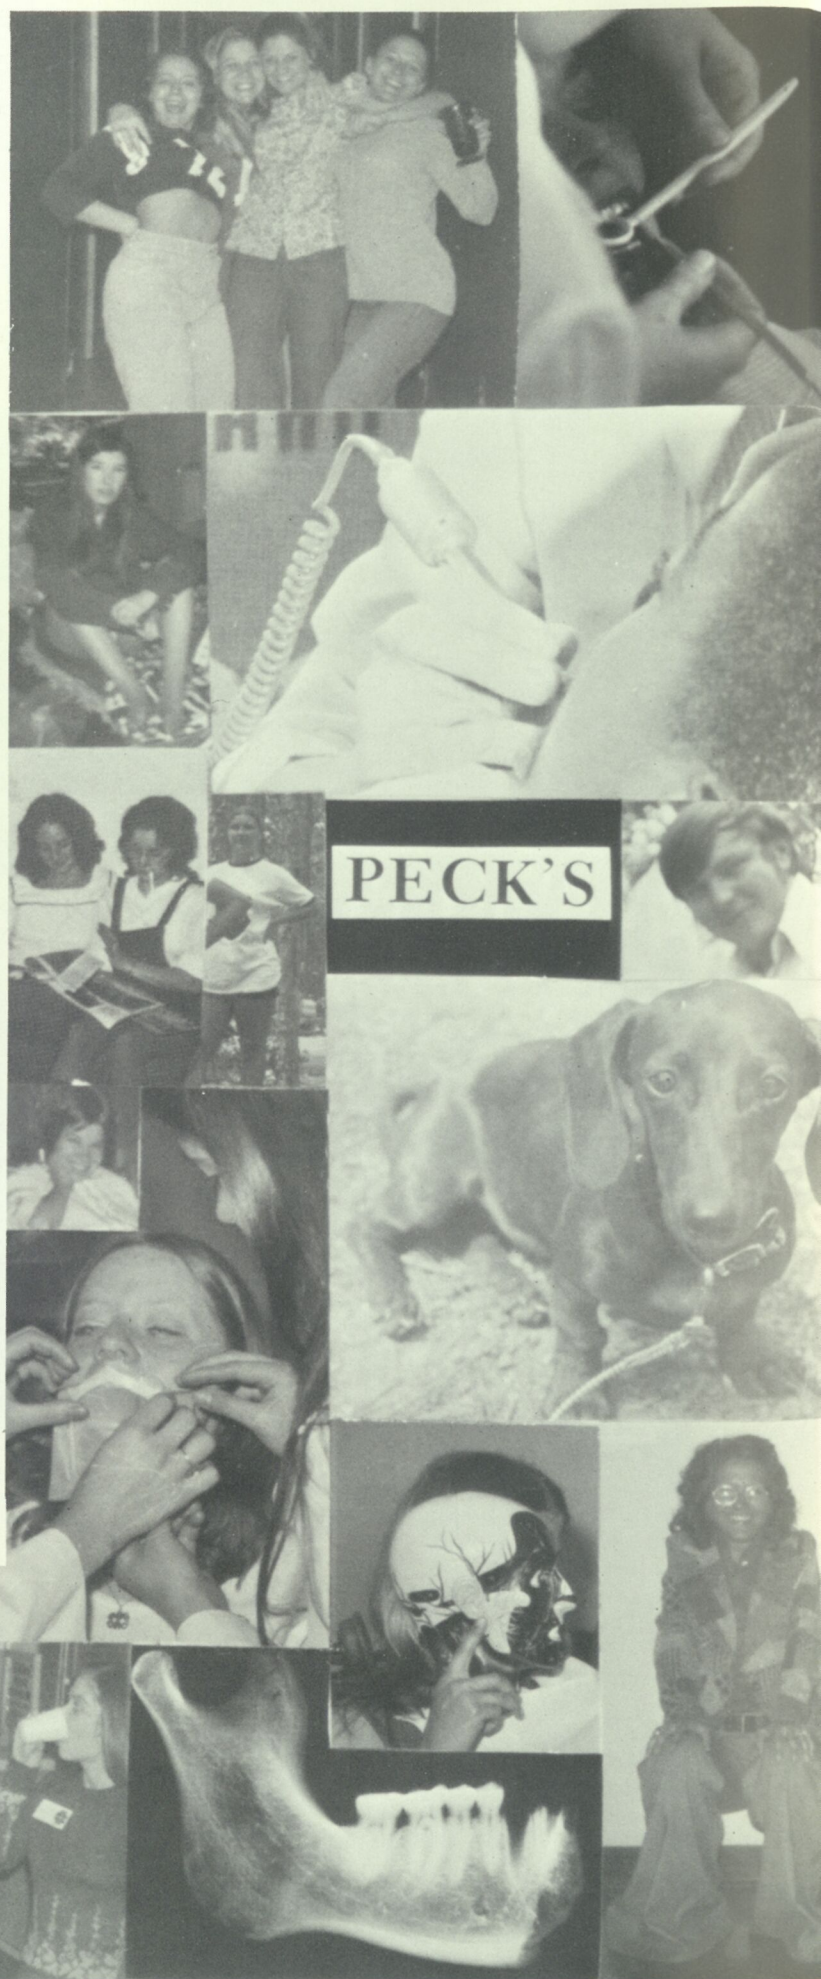

Home from clinic and still the smell of warm blood and bad breath is on my hands . . . ambition . . . what is it, how can one get excited about gagging . . . Today the kid from the blind school learned to floss, it was really neat!

Sir, would you be be interested in having your teeth cleaned? Yes, we have to find our own patients! . . . Climbed Pinnacle again yesterday, view great, kinda helps clear the head . . . How many retakes! Oh, gotta go wash uniforms and shoestrings tonight . . . maybe I can get up early in the morning and do it . . . some one said something about Pecks after school . . . Oh, you wear dentures, thanks anyway, Okay . . .

The first day I came here it was kinda like grade school, small room, just 28 people, the instructors come to us instead of us running all over a campus in five minutes. Wierd . . . Talk about adjustments. How can I stay stimulated and interested seeing the same faces, walls and people eight hours every day. Sometimes the Lilly men or the Grest men stop by . . . Spotted a case of ANUG last week . . . all by myself.

News is on now . . . gosh that means its ten, wonder if tomorrows' patients are asleep yet . . .

Saw a friend had been to the clinic, was really impressed at how professional everyone looked and acted . . . Too bad role playing becomes a part of life, too bad her words make me feel successful and important . . . Would you be interested in a trip to the Bahamas? Sure I'll go with you . . . what a lie, but after all his chances of winning are only 200 to 1.

Dental Hygiene

FLOSS

Don't know how the instructors find out so much . . . squealer? Remember when I was just an I.D. # on a Zerox grade report. These people can't be college professors and doctors . . . I think they might care . . . What if I cut tomorrow . . . kinda hard not to miss one person when there are only 28 desks . . . Made an F on a patient . . . who cares about grades . . . but tomorrow I'll show her I can scale. Today I did a fantastic job on a two . . . shame the rays were no good and I forgot to polish my shoes.

Never should have gone to Shakey's for the noon buffet . . . my one o'clock will be here in a minute . . . wish he wouldn't show, would be nice to siesta for awhile. Why! Why! Why! did she disclose me today! of all days! . . . waited for fifteen minutes to check out and my 2:30 got tired and left . . . Do I hate unit one or VA the most? . . . you know what you can do with it.

I've always been told to be kind to old people on the way up because I'll meet them on the way down . . . saw an old friend yesterday for the first time in a long time . . . omen?

Do you ever have kidney problems? . . . bleeding? . . . rheumatic fever? . . . OK sign here . . . Oh, ugh, mulberry molars, darn . . . be right back . . . gloves? Yes, they help me hold onto the instruments better.

I know Golden Arches is open, went there when I was studying last year, . . . Why procrastinate so . . . pick up the book and get it over with . . . it has been a long time since I defrosted the fridge . . . What happened to all that self-discipline, maybe it will ice over tomorrow . . . what a vicious circle.

No more long vacations now that it's over, no more of the same questions when I go home . . . "How's school? . . . How's your love life? . . . Where are you working when you get out? . . . Oh yes, my dentist has an assistant, cute little girl, but she didn't have to go to a special school."

Headstart, followthrough . . . what the difference . . . who cares about or remembers the rotten little kids? If they don't gag in the x-ray room they'll squirm or bite in the chair, . . . he was about 6 (first molars shaggy brown head, puppy-dog eyes, dried milk on his lips and dirt on his cheek, holey untied tennis shoes and ragged jeans . . . finished, gave him a tooth brush . . . a big tear rolled down his face . . . he said I love you . . .

Hey, Hey, Hey, no school this afternoon . . . study for boards, are you kidding? When I was little and playing with dolls, I never dreamed my whole educational life would hinge on one test someday . . . Just costs \$15 to take . . . what a laugh . . . add tests . . . at least 16 years of school . . . thousands of dollars for books, fees, tuition, laundry, coffee, and red and blue pencils . . . pretty important test . . . Yep! Think I will go canoeing after all.

You're engaged! . . . that's great, have you set the date? . . . I mean really, 10 cancellations in one week. . . you had a wreck . . . Why did you break-up with him . . . Sorry to hear about your brother . . . you flunked the final . . . lost your instruments . . . again . . . Everyone has problems, but that's no reason to forget to sign-in.

Always thought reversible hydro-colloid had to do with clothes . . . Plaster in water or put water in plaster . . . Had a dog who used to set-up, but not as fast as alginate.

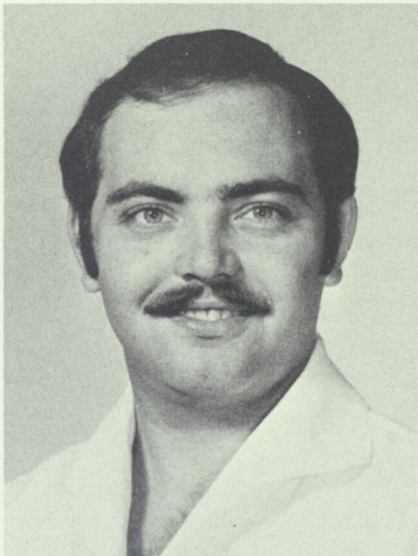

Why is it "we" when things are going good, and "they" when the boat gets rocked? . . . Lake deGrey was fun, nice to see everyone in plainclothes . . . BTS is gone with the wind . . . Well if I flunk I can always get a job as a maid or waitress.

"Laboratory space is sometimes limited with students in the lab."

"I don't think this is soda pop, but the sugar's high"

Gary Almquist

Lee Walt Bransford, Jr.

Mattie Lou Godfrey

Operating room technicians, sometimes called surgical technicians, have traditionally been skilled in technical procedures, usually as instrument passers, in the operating rooms of hospitals. Due to the growing shortage of professional nurses, however, the trend in education of operating room technicians is toward preparation for a broader role than the traditional one. This curriculum follows current trends in providing the technician with a broader base for performing in a number of settings requiring aseptic procedures and the use of surgical equipment. The curriculum prepares the technician to work with skill and understanding in recovery, emergency, labor and delivery rooms as well as in the operating room.

The Associated Student Government is an organization formed by representatives chosen by each of the classes in all the schools at the Medical Center as well as the officers who are elected by the study body. In the past, the main concern of this organization has been scheduling the main social events involving all the schools. This year these included seven dances, the annual New Year's Party, and the all-school outing as well as several movies and coffee-houses. Attempts have been made to institute changes with respect to student housing, recreation, health, and other areas. However, most of these were met with strong opposition from the administration due to the students' low ranking with respect to expenditure priorities. Maybe some day, the administration will realize that student attitudes toward their studies and toward the administration are pertinent enough to assign a greater priority to non-academic student affairs as most other institutions already realize.

THE ARKANSAS CADUCEUS CLUB

NEEDS AND WANTS YOU

This non-dues-collecting group of Medical School graduates, present and former house-officers, faculty, nongraduate Arkansas physicians, and other friends of the School exists to support the School of Medicine. But that's not all we do. We have fun, too . . . and we want you back to enjoy class reunions and to participate in Caduceus Club projects: philanthropic and/or fun.

In June we meet . . .

. . . and enjoy!

. . . and pay special tribute.

. . . and have our own kind of continuing education.

Mrs. Louis K. Hudley
Executive Secretary
Room 3Uo2
UAMC Student Union

. . . and we've got the gal who gets it all together.

AN AFFILIATED TEACHING HOSPITAL OF
THE SCHOOL OF MEDICINE
EMORY UNIVERSITY
ATLANTA, GEORGIA

OVER 75 CERTIFIED SPECIALISTS
IN ALL FIELDS PLUS 16 FULL-TIME
PHYSICIANS

OUTSTANDING MEDICAL LIBRARY

GEORGIA REGIONAL MEDICAL PROGRAM
AGENCY FOR
CONTINUING MEDICAL EDUCATION

EXPANDED EMERGENCY SERVICES AREA

PROGRAM

A strong teaching program is offered by The Medical Center with paramount clinical responsibility under the direction of a Director of Medical Education and full-time chiefs of the four major services. Since the Medical Center is the only comprehensive medical complex in the area, it constantly receives referrals of cases which command more than ordinary attention.

House staff members are encouraged to participate in medical seminars and meetings on the state and national levels and are included in all functions of the Muscogee County Medical Society, both professional and social.

Monthly stipends for house officers are: First Year, \$800; Second Year, \$850; Third Year, \$900. House staff members schedule two weeks annual vacation.

Tulsa Medical Education Foundation, Inc. . . .

. . . The Total Teaching Team

TULSA . . . where the professional personnel, facilities and resources of major hospitals and related institutions are combined into a complete post-graduate learning experience, drawing from —

- 1,700 beds
- 63,000 admissions annually
- 50,000 outpatient visits annually
- 72,000 emergency room visits annually

RESIDENCY PROGRAMS — combined in the three major hospitals (St. John's Hospital, Saint Francis Hospital and Hillcrest Medical Center) — are all directly affiliated with the University of Oklahoma Health Sciences Center and are Tulsa-wide in scope. The three major general hospitals offer combined appointments for graduates as straight intern/first-year residents. These are filled through the national matching plan.

Traditional first-year residency programs are available to physicians who have completed an internship.

Joint residencies available in:

Internal Medicine	Pediatrics
Surgery	Obstetrics & Gynecology

Pathology residencies available at:

Saint Francis Hospital
Hillcrest Medical Center
St. John's Hospital

Subspecialty rotations (Usually one month)

Medicine	Surgery	Pediatrics
Gastroenterology	Urology	Pediatric Cardiology
Cardiology	Orthopedics	Pediatric Neurology
Nephrology	Cardiovascular	Pediatric Psychiatry
Hematology	Anesthesiology	Neonatology
Pulmonary Diseases		

Children's Medical Center offers its facilities as an added learning experience to those pursuing residencies in pediatrics — with outpatient visits (including psychiatric) totalling 24,500 and over 300 inpatient admissions annually.

INTERNSHIP PROGRAMS continue to be individually based in two of Tulsa's three major hospitals — Hillcrest Medical Center and St. John's Hospital — with rotating electives 0, 1, 2, 3, 4 and 5.

Hospital-based specialists and subspecialists play a major role in teaching. Clinical laboratories in many subspecialties are unexcelled. Ample opportunities for clinical research, complete with effective supervision, are available.

The Tulsa Medical Education Foundation, Inc., has been established as a central administrative office to coordinate internship, residency and medical students' programs in Tulsa. Write for your brochure describing each program in detail and other educational advantages offered by Tulsa.

"Yes, I do have to shave my palms"

Think Inc.

To incorporate or not to incorporate?

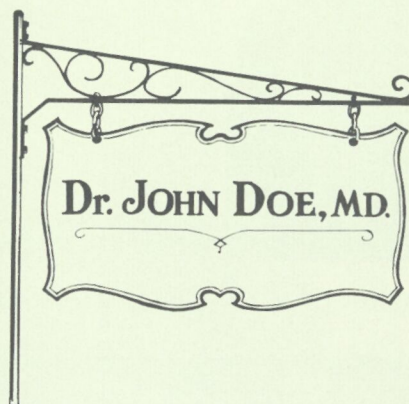

Maybe that's not the real question.

After all, you've probably heard it's a nice opportunity. That is, you can take advantage of the liberal tax treatment available to corporations through qualified pension or profit sharing plans.

So perhaps the more significant question is where to go for assistance.

Perhaps you should go right to the top.

To New England Life, the company that has sold more individual policy pen-

sion trust plans than any other insurer.

Furthermore, the plans they can offer you and your professional advisers are pre-approved by the IRS and afford the kind of flexibility necessary to develop a

program to meet your needs exactly.

For instance, you have freedom in determining plan contributions or benefit levels.

You can wait until retirement to select your form of payment. And working with one of our representatives, you can choose from a wide variety of investment vehicles to fund your plan, including mutual funds and variable annuities.

We'd like to send you a free booklet on the professional corporation, entitled "Tax Breakthrough for Professionals."

Think New England Life.
